A 5-Star rating can be biased at times, but let me leave you with this. I choose to rate "Sitting at the Feet of Rabbi Jesus" with five stars because it showed me the fabric of Jesus as a Jewish Rabbi like my first pair of glasses showed me the vibrant colors of the trees, sky and other objects around me like I had not seen them before. When I was around twelve years of age I needed corrective lenses. That meant I was going to get a pair of prescription eye glasses for the first time. They were big, unflattering and upon putting them on for the first time, my perception of gravity, that is, the experience of how my feet hit the pavement as I walked greatly changed and colors became for the first time robust right before my eyes! Reading "Sitting at the Feet of Rabbi Jesus" for those who are not Jewish such as myself, was like my depth perception being drastically changed when those eye glasses went on. Yet, like those robust colors that came to life, so it is, to know Jesus as a Jewish Rabbi. I recommend this book to Jews and Gentiles (non-Jewish people) alike. The vivid tapestry of His Jewishness is quite captivating and the Jewish culture and people who He was intimately acquainted with and surrounded by will both challenge and intrigue you. Like most books on the subject of God or Jesus of Nazareth, one reading will never suffice. The first reading is both engrossing and a bit of a struggle. Every other reading, will produce more and more affect to a desired conclusion—to know this Jewish Rabbi that still intrigues and confounds the world 2000 years later.
